Not illustrated. 1914 Excerpt: . . . and then does the mucin placque form as a calculus would in that way Or does the mucin stop first and make the tanglefoot, and then do the bacteria come there, and then do their work Who knows that And yet see how important it is from any standpoint of understanding just how the trouble begins. Nobody has learned whether the one is a cause or a result. And that, of course, must be determined at least before we know the full story in this relation. Another problem: Why do many continuously unclean, that is unbrushed, teeth fail to decay, and why do many teeth that are frequently cleaned, brushed, decay easily and extensively As a chemist I cannot answer that except to assume that the teeth are different; that some teeth will stand anything, and some teeth will stand little. But from the clinical side..
