Existing cities in the economic structure. planning and construction management system. environmental quality. public services. social harmony and security difficult to adapt to the new requirements of the urban age. urban development is facing tough challenges. In the new era. we must attach great importance to the city of scientific development. and comprehensively improve the quality of urban quality and urbanization. actively promote the depth integration of economic development and ecological environmental protection. promote the common prosperity of the urban economic. social and ecological go low-carbon. environmentally friendly. efficient and harmonious safe green road to prosperity. To do this. you need to establish the concept of green development. the promotion of green low-carbon technologies. and build a green economy. especially modern green industrial system. the implementation of green living and consumption patterns. and strengthen the green management. assessment and support system. and further improve the relevant supporting policies and measures. full speed to promote the transition...
